HOBBIES AND INTERESTS

Tennis player

I've been playing tennis since I was 10. Today, as a veteran player, I still regularly play both tournaments and friendly matches. Tennis has given me a lot in terms of capacity to concentrate and manage difficult situations.

Guitar player

Though originally started with a piano, I turned to guitar when I was 14. I spent a lot of time in trying to learn properly and make a work out of it. Unfortunately, it was not the case, but I had the regular opportunity to play in rock bands and, still today, I keep regularly rehearsing and, if possible, playing gigs at small venues. Playing guitar helped me a lot in learning how precision, dedication and accuracy count in every thing you do in your life.

Motorbikes

I love riding my motorbike from spring to autumn. Traveling long and medium distances favors concentration and stimulate thinking. Riding short distances makes you love the gear you are on.
